

1 41. (New) A method including the steps of claim 38 and additionally including
the steps, executed after step (d) and before step (f) of claim 38, of:

2
3 (1) in the trusted environment, displaying a representation of the parsed command
4 to a second user;

5 (2) receiving a signal from the second user signifying whether the displayed
6 representation accurately represents a legitimate command; and

7 (3) if the signal signifies that the displayed representation does not accurately
8 represent a legitimate command, then preventing the performance of step (f) of claim 38.

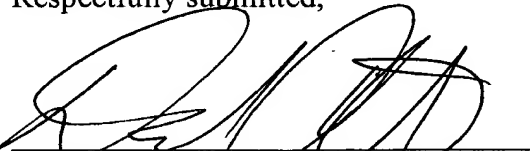

REMARKS

This Preliminary Amendment presents new claims 21-41 which are directed to processing trusted commands in trusted and untrusted environments. Claims 38-41 correspond to the non-elected claims 6-9 from the parent case.

It is respectfully submitted that the present application is in condition for allowance and such action is respectfully requested. If there are any questions or comments regarding this Preliminary Amendment, the Examiner is encouraged to contact George W. Jordan III or David R. Clonts at (713) 220-5800.

Respectfully submitted,
